# **100MW solar power station in Liberia**

## Overview

---

West African nation, Liberia is set to inaugurate its first large-scale solar power plant in October 2025, a key step in the country's energy supply and reliance on hydropower. The initiative aims to expand access to reliable and affordable electricity across West Africa. The 20-megawatt (MW) solar. 100MW of capacity to be procured through competitive tender. The Liberia Electricity Corporation (LEC) has invited interest by 15 September from consultants for the preparation of studies to facilitate the construction of 100MW of solar photovoltaic (PV) plants with battery energy storage systems. Harrisburg, Montserrado County - President Joseph Nyuma Boakai, Sr.
