

# Ac battery storage

100KWH/215KWH

LIQUID/AIR COOLING

IP54/IP55

BATTERY 6000 CYCLES

## Overview

---

The battery storage unit stores energy in DC form, allowing homeowners to utilize stored solar energy during nighttime or overcast days, to time shift utility energy in order to lower electricity bills, and to provide backup power during grid outages. AC coupled battery storage systems represent a groundbreaking solution for integrating solar power with energy storage, offering unprecedented flexibility and efficiency for both new installations and existing solar setups. It serves as the building block for an AC-coupled home energy management and storage solution, particularly ideal for homes with an existing solar PV system, as it. All AC storage is crucial for enhancing power reliability, particularly as renewable energy sources become more prominent in our lives. This innovative system represents the next step in accessible ac coupled battery storage technology.
