Argentina grid-scale energy storage

Overview

The “Alma-GBA” initiative, as it's known, signals a decisive shift towards leveraging battery energy storage systems (BESS) to enhance grid reliability and prepare for a more decentralized, renewable-powered future. 15 companies submitted 27 projects, pledging over \$1 billion in investment for a total that far exceeded the tender's 500 MW target. The international tender, first announced in February, aimed to secure 500 MW of. The successful awarding of landmark tenders, including the groundbreaking 205MW / 1025MWh large-scale battery storage project, signals a decisive shift towards a modern, resilient, and sustainable grid. Designed to reinforce the grid in the greater Buenos Aires area, the initiative has sparked significant interest—receiving more. Argentina's main renewable energy association will formally incorporate energy storage into its name, reflecting the rapid growth of battery systems. Its president says the upcoming AlmaSADI tender will drive strong market momentum. The Argentine Renewable Energy Chamber (CADER) is set to formally.

Argentina grid-scale energy storage

Unlock High Growth Potential for Argentina Solar Plus Storage in

Introduction: Argentina at the Energy Crossroads As of February 2026, Argentina's energy landscape is undergoing a pivotal transformation. The successful awarding of landmark tenders, ...

Argentina awards 667 MW in inaugural battery storage tender

The awarded projects are part of the Alma-GBA tender, which targets critical nodes in the Buenos Aires Metropolitan Area (AMBA) to enhance grid reliability and efficiency. The Ministry of ...

Energy storage takes centre stage in Argentina as CADER signals ...

Argentina's main renewable energy association will formally incorporate energy storage into its name, reflecting the rapid growth of battery systems. Its president says the upcoming AlmaSADI ...

Argentina to launch call for energy

storage proposals

Interested parties are being invited to propose projects encompassing the financing, construction and management of energy storage systems in the wholesale electricity market. The ...

Argentina Receives 1.3GW of BESS Proposals for First-Ever 500MW ...

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban ...

Argentina's Oversubscribed Energy Storage Tender ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Argentina's First Battery Energy Storage Systems Tender Draws 1.3 ...

Argentina has taken a decisive step toward modernizing its power infrastructure, drawing international

attention with its first large-scale battery energy storage tender.

Argentina's first energy storage tender receives 1,347 MW of bids

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid.

Argentina's AlmaGBA: A Blueprint for Grid Stability & C& I Energy Storage

Argentina's landmark AlmaGBA Initiative presents a replicable model for enhancing grid resilience through commercial & industrial (C& I) storage. It outlines financing mechanisms & policies ...

Buenos Aires Battery Storage: \$540M Energy Project Advances

Argentina's \$540 Million Bet on Battery Storage: A Blueprint for Grid Resilience?

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), ...
