# **Boston Base Station Energy Storage Battery Project**

## Overview

---

Streamfield is a 200-megawatt utility-scale battery energy storage project that will connect to Eversource's existing Buck Pond substation on Medeiros Way. The facility aims to improve the reliability, stability, and resiliency of the regional power grid. Massachusetts is making a big push for batteries — not the kind you put in a flashlight, but powerful, tractor trailer-sized batteries that store energy for the electric grid. has generated a wave of resident backlash to underdeveloped regulation of BESS facilities, which state officials say are. ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage system (BESS) in Boston, Massachusetts. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in. Trimount ESS LLC (the “Company”) filed petitions with the Energy Facilities Siting Board (“Siting Board”) seeking: (1) approval to construct, operate, and maintain two underground transmission lines, one at 115 kilovolt (“kV”) and one at 345 kV; and (2) individual and comprehensive zoning. Summary: The Boston Battery Energy Storage Station represents a transformative leap in grid-scale energy solutions.

## Boston Base Station Energy Storage Battery Project

---

### How battery storage is poised to transform New ...

Battery storage systems are taking off in Massachusetts, and residents are getting paid to install them in their homes and businesses.

---

### Flatiron Energy wins approval for 300-MW battery in Massachusetts

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage system (BESS) in ...

### Fears Over Safety of Energy Facility in Brighton Will Lead City to

A Battery Energy Storage System proposed for construction in Brighton at 35 Electric Ave. has generated a wave of resident backlash to underdeveloped regulation of BESS facilities, which
