ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) unit. It features two vertical green stripes running down the center. At the top right, the letters 'ESS' are printed in green. In the middle, there is a blue hexagonal graphic with a lightning bolt symbol. At the bottom, there are two yellow warning triangles with lightning bolts, indicating high voltage or electrical hazards. The unit is mounted on a black base.

Bulgaria europe renewable energy

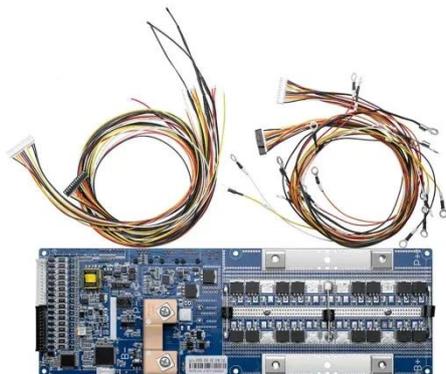

Bulgaria installs 1.4 GW of solar in 2025

Bulgaria reached a critical milestone in its renewable energy transition in 2025, building 1,416 MW (1.4 GW) of new solar photovoltaic (PV) capacity -- its third consecutive year above 1 GW - bringing the ...

Bulgaria is slowly moving towards the European target for renewable

The share of renewable energy in gross final energy consumption in Bulgaria grew to 22.55% in 2023. The increase is 3.51 points, compared to 2022, when the indicator was 19.04%. ...

Bulgaria Uses Renewable Energy for Heating, Cooling Above EU ...

The use of renewable energy sources in heating and cooling continues to increase in the EU, with the share of energy from renewables in those areas reaching 26.2% in 2023, the highest ...

Share of renewable energy in final

energy consumption , Bulgaria

The indicator shows the gross final consumption of energy from renewable energy sources (RES), expressed as a share of the gross final consumption of energy from all sources.

Bulgaria: Renewable energy use for heating and cooling ...

Bulgaria is among the EU countries that experienced a notable drop in the use of renewable energy for heating and cooling in 2024, with the share declining by 1.9 percentage points ...

EUROPE BULGARIA

In recent decades, Bulgaria has emerged as a prominent energy leader in the Balkan region. Historically, the Bulgarian energy sector has relied heavily on conventional sources such as ...

BTA :: Bulgaria Records 1.9-Percentage-Point Drop in Renewable Energy

Bulgaria is among the European Union (EU) member states that recorded the sharpest decline in the share of

renewable energy sources used for heating and cooling in 2024, with a year ...

Green Transformation: Bulgaria's Path in the Energy

This chapter explores Bulgaria's green transformation within the framework of the European Green Deal, analyzing its progress, challenges, and opportunities in the energy transition ...

EU Renewable Energy Use Grows, While Bulgaria Sees Significant ...

Bulgaria is among the EU countries that experienced a notable drop in the use of renewable energy for heating and cooling in 2024, with the share declining by 1.9 percentage points ...
