Byd photovoltaic solar panels

Overview

Photovoltaic modules manufactured in Brazil by BYD: efficiencies between 21 % and 22.7 %, PERC and TOPCon technology, with guarantees and diverse applications. BYD's dream is in line with what humanity needs: to change human dependence on non-renewable energy to clean energy sources. BYD's photovoltaic energy solutions are applied in small, medium and large-scale solutions for residential, commercial, industrial, rural, investors, energy concessionaires. Competitive Value Positioning: BYD solar panels offer compelling price-to-performance ratios, typically priced 10-15% below premium brands while maintaining competitive efficiency ratings up to 22.6% and power outputs ranging from 395W to 650W, making them ideal for cost-conscious installations. Through its subsidiary, FinDreams Battery, BYD was the world's second-largest electric vehicle battery producer in 2024, holding a 17% market share, positioning the company uniquely in the solar industry with unmatched energy storage integration capabilities. The business footprint covers more than 100 countries and. BYD (Build Your Dreams) is renowned globally for its commitment to electric innovation, and its solar division offers high-quality solutions perfect for residential, commercial, and utility-scale projects. BYD has a photovoltaic plant in Campinas (SP) dedicated to Research and Development (R&D) in Brazil.
