

# Cairo battery life

## Overview

---

Typical lifespan ranges from 10-15 years depending on usage cycles and maintenance. Are they suitable for extreme climates?

Yes, our batteries operate reliably in temperatures from -20°C to 60°C. What warranty is provided?

We offer 5-year comprehensive warranty with optional extended. Paris, 24 September 2024 – Saft, a subsidiary of TotalEnergies, has won a major contract with Kinki Sharyo, the Japanese rolling stock manufacturer, to deliver the onboard backup batteries for 92 trains destined for the new Cairo Metro Line 4 currently under construction in Egypt's capital city. In Cairo's energy storage sector isn't just growing – it's rewriting the rulebook for sustainable urban development. With Egypt aiming to achieve 42% renewable energy by 2035 [1], the Nile Valley has become ground zero for energy storage innovations that could power half of Africa. MRX batteries are designed to provide high energy and power performance combined with a high level of reliability and low life cycle cost es (storage. EIC delivers industry-leading battery solutions Starter, motive and stand by engineered for performance, durability and sustainability.
