Can I buy a locker made of pp material

Overview

Get free shipping on qualified Polypropylene Lockers products or Buy Online Pick Up in Store today in the Storage & Organization Department. Recycled Claim Standard 100 (RCS100) certified products contain recycled content (>95%) that has been independently verified at each stage of the supply chain, from the source to the final product. These versatile storage units are designed to offer convenience, security, and organization in busy environments. Metal Lockers, or more specifically, cold-rolled steel, have been the standard for high schools for generations.

Can I buy a locker made of pp material

Choosing the wrong material can be costly due to the poor quality or the overall weakness of the material. Here are five different types of locker materials and how they compare.

5 Types of Locker Materials Compared , Scranton Products

Metal Lockers
Phenolic Lockers
Wood Lockers
Laminate Lockers
Hdpe Plastic Lockers
Phenolic plastic lockers have proven to have their advantages when

put to the test against metal in that they're a little more durable and easier to clean. However, most phenolic plastic features a kraft paper core that's susceptible to mold growth. Once the interior is compromised, a costly replacement is required. See more on [scrantonproducts Lockers](#)
