

# Can the solar battery cabinet lithium battery pack be charged in red

## Overview

---

The battery cabinet is charged using solar or when grid power is available. Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Securall understands the critical risks associated with modern energy storage. Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. Constructed from powder-coated sheet steel, they incorporate a tested, liquid-tight spill sump to manage. Lithium-ion batteries can overheat, especially during charging, potentially leading to thermal runaway—a process that can cause a fire.
