

Croatia electric vehicle range

Overview

Croatia remains at the bottom of Europe's electric vehicle adoption rankings, with battery-only electric cars making up just 1.8% of all new passenger car registrations in 2024—far below the EU average of 13. Croatia's new car market grew by 12. Within this broader growth, battery electric vehicles (BEVs) also rose from 1,618 to 1,915 units, an increase of 18. Popular EV models include the Renault Zoe, Nissan Leaf, and Volkswagen e-Golf, reflecting a growing interest in sustainable transportation. The stark figures place Croatia bottom. The Croatian State Fund for Environmental Protection and Energy Efficiency has announced that it will provide a total of €21.
