Cylindrical lithium iron phosphate battery assembly price

Overview

During the third quarter of 2025, the lithium iron phosphate prices in the USA reached 12,799 USD/MT in September. Prices softened as cell producers prioritized inventory drawdowns and deferred new cathode procurement. Since 1995, besides manufacturing Lithium battery cells with different chemistries, EEMB has been assembling custom battery packs in different battery chemistries for all electronic applications. All custom design battery packs have been built to match our customers' unique requirements. They are available in three primary configurations: cylindrical, prismatic, and pouch, each with unique attributes that cater to different applications. High Capacity of single cells upto 6500 mAh. Multiple Shapes with 14500, 18650, 26650, and 32600. Wide Discharge rate range from 1C to 15C. Customers can wholesale according to different sizes such as 32700 LFP cells or 32140 lfp battery cell.

Why Choose Our Cylindrical LiFePO₄ Cells?

Inherently safe chemistry with thermal stability and no thermal runaway risk. Cylinders are mainly steel cylinder lithium iron phosphate battery, which has high capacity, high output voltage, good charging and discharging cycle performance, stable output voltage, high current discharge, electrochemical stability, safety in use (no combustion or explosion due to improper.

Competitive Pricing: Despite offering customized solutions and high-quality components, we are committed to providing competitive pricing to our customers. We work closely with you to understand ...

Cylindrical LiFePO₄ Cells

Premium cylindrical LiFePO₄ cells with 3,000+ cycle life, fast charging, and

superior safety. Available in 18650, 26650, 32650 formats for industrial applications, energy storage, and electric vehicles.

What is Cylindrical Lithium Iron Phosphate Battery? Uses

A Cylindrical Lithium Iron Phosphate battery is a type of lithium-ion battery characterized by its cylindrical shape, typically with dimensions like 18650 or 26650.

Exploring LiFePO4 Battery Cell Types: Cylindrical, Prismatic, and Pouch

Lithium iron phosphate (LiFePO4) batteries are renowned for their exceptional safety, impressive cycle life, and superior thermal stability. They are available in three primary ...
