Cyprus Substation Energy Storage Project

Cyprus Substation Energy Storage Project

Cyprus regulator approves TSO-owned battery storage

Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Cyprus Approves Battery Storage Project with Eight New Transformer Units

Located in Psevda, Larnaca District, the project is designed to ease strain on the EU's only non-interconnected electricity grid. The transformer units will play a critical role in stabilizing voltage levels and ...

Cyprus approves state-owned battery storage to strengthen grid

TSOC will install battery storage systems at three major substations: These 120MW of capacity and 400MWh of energy storage will serve as a stabilising force, helping the grid absorb

Cyprus prepares for advanced grid storage at three key substations

The Electricity Authority of Cyprus (EAC) has issued a tender for construction and infrastructure works to install electricity storage systems at three substations in Nicosia, Larnaca, and Paphos, along with ...

Cyprus Approves Big Battery Energy Storage System Project

Cyprus' Department of Environment has approved a project for what is set to become one of the country's first battery energy storage systems with HESS Hybrid Energy Storage Systems is planning to ...

Cyprus Launches First Major Battery Energy Storage System

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and renewables.

Green light for one of first standalone battery investments in Cyprus

The Electricity Authority of Cyprus plans to upgrade the nearby Psevdas high-

voltage substation by 2029 to integrate the standalone battery system. Construction work is expected to last ten months, while ...

Cyprus approves 120MW battery storage system

The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's electricity ...

Cyprus Approves 120MW Battery Storage Plan to Bolster Grid Stability

The Cyprus Energy Regulatory Authority (CERA) has approved a major energy storage project totaling 120 megawatts (MW), aimed at improving grid stability and securing the island's electricity supply. ...

Cyprus approves electricity grid storage projects to boost energy

The Cyprus Energy Regulatory Authority

(CERA) has approved the Cyprus Transmission System Operator's (TSOC) request to develop and operate large-scale energy storage systems integrated into the ...
