---

The energy storage cabinet has a long lifespan of 10 years, protective class reaches IP54, with a forced air cooling method, over 6000 cycle times at 80% DOD, 25°C. We offer a warranty of standard 60-month warranty from the delivery date. Supplier highlights: This supplier mainly exports to Maldives, United States, and Zambia, offering full customization, design customization, and sample customization services. The products are certified with a positive review rate of 89. Outdoor cabinet energy storage system is a compact and flexible ESS designed by Megarevo based on the characteristics of small C&I. The Outdoor Photovoltaic Energy Cabinet is an all-in-one energy storage system with high strength, which can work under harsh environmental conditions to supply high-performance energy backup and regulation. It is built specifically for outdoor installation and integrates advanced LiFePO<sub>4</sub> battery. When sunlight irradiates solar panels, based on the photovoltaic effect, semiconductor materials in the panels absorb photon energy, generating electron-hole pairs that form an electric current. The cabinet is integrated with battery management system (BMS), energy management system (EMS), modular power conversion system (PCS), and fire protection system. The system's capacity is up to.
