# **Democratic Republic of Congo solar Panel Project**

## Overview

---

Indian IPP, Soleos, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). The US\$ 200 million project will be located in Fipango village, within the Kipushi territory in Haut-Katanga province. The project will be executed under a 25-year power purchase agreement (PPA) with DRC state-owned utility Société Nationale d'Électricité. The Democratic Republic of Congo (DRC) is endowed with abundant natural resources, including significant solar energy potential. As the world shifts towards renewable energy sources, the DRC is positioning itself to harness solar power through utility-scale solar projects. The project is set for commissioning by late 2026. Soleos Energy said in a statement on.
