Dhaka power outages

Overview

Power has been restored to different parts of the capital after outages of more than two and a half hours. For all latest news, follow The. Lights have begun to flicker back with electricity gradually being restored after large swathes of Dhaka were left without power for about two hours following a grid failure in Rampura. Data released by Power Grid Bangladesh (PGB) revealed a power shortage of 498MW at 4pm when the supply of power stood at 14,379MW against the power demand. Large parts of Bangladesh's capital Dhaka were plunged into darkness on Sunday night after a major power substation in Rampura went out of order, affecting areas covered by the city's electricity distributors – Dhaka Power Distribution Company Limited and Dhaka Electricity Supply Company Limited. The power disruption occurred around 9:50pm due to a technical fault in the 230/132kV Rampura grid substation, according to the Power Grid Bangladesh PLC.
