Does Myanmar Telecom have base stations

Overview

Commander-in-chief Senior General Min Aung Hlaing stated at the opening ceremony of Mytel on 11 February 2018 that it will cover 93 percent of the 2G networks and 60 percent of the 4G networks of Myanmar after installing towers and stations across the country. In 2014, Qatar-based Ooredoo and Norwegian Telenor through their local subsidiaries - respectively Ooredoo Myanmar and Telenor Myanmar - entered the market, resulting in the reduction of consumer prices, rapid growth in the number of subscribers, as well as the expansion of the country's. According to official figures released in mid-2012, Myanmar had 857 base transceiver stations (BTS) for 1,654,667 local GSM mobile users, 188 BTSs for 225,617 local WCDMA mobile users, 366 BTSs for 633,569 local CDMA-450 mobile users, and 193 BTSs for 341,687 CDMA-800 mobile users. Globally, the. Secondly, there are unexpected difficulties with expanding Myanmar's network coverage area. A key issue standing in the way of building base stations is that land owners are usually hard to contact. As the telecoms business is now a potential one when inviting. As a leading ISP company in Myanmar, we take pride in providing top-quality internet services to our customers across the country.

Does Myanmar Telecom have base stations
