

# **El Salvador invests in solar panel manufacturers**

## Overview

---

The French energy generation company Neoen has invested close to \$285 million in photovoltaic generation projects in El Salvador. Its most recent project is Capella Solar, which will have two plants with a combined capacity of 140 MW. In a significant step forward for its renewable energy ambitions, El Salvador has received a key delivery of solar components from Nantong Gamko New Energy. The shipment, announced by the company on Decem, included 340W mono solar panels and Deye inverters, reinforcing the nation's. The growth potential in El Salvador is bolstered by several factors, including technological advancements, declining costs, and favorable natural resources for renewable energy generation. 6 million, according to data from the Ministry of Housing. Between 2015 and 2023, El Salvador experienced a 160-fold increase in its solar energy generation capacity, according to statistics from the Latin American Energy. El Salvador is poised to lead the region in solar energy by 2025, thanks to a significant increase in solar-powered plants and a decisive shift toward renewable energy sources. This positions the country as one of the most competitive markets in Central America. Our county also has a strong participation in the Regional. Amsterdam/Oslo- 6 February 2023 - MPC Energy Solutions (MPCES) has announced the start of operations for its Santa Rosa and Villa Sol solar photovoltaic (PV) plants in El Salvador, which have a combined installed capacity of 21.
