## Overview

---

30% of the UK's public electric vehicle charging points are hosted in London, yet over 50% of Londoners can't charge at home. Electric London is a coalition of businesses and organisations from across the electric vehicle (EV) value chain. We are made up of EV manufacturers, charge point operators, logistics and freight companies, private hire vehicle companies, vehicle rental organisations, campaign groups and business. All Tesla vehicles have zero emissions whilst driving and may be eligible for financial incentives that encourage clean energy use in the UK.

## Electric vehicle incentives london

---
