

Electricity distribution bamako

Overview

Mali has secured about US\$60 million in financing from the Islamic Development Bank (IsDB) to strengthen the electricity network serving its capital, Bamako, as authorities seek to stabilise a power system crippled by chronic outages and weak infrastructure. The African Development Bank Group's contribution will help safeguard the power supply in Bamako, the capital of Mali, and ensure access to reliable, sustainable and modern energy services. The funding equivalent to roughly 36. 1. In a significant move to stabilize the energy supply for its capital, the Malian government has ratified a 36.
