# Energy-saving and energy-storage new energy models

## Overview

---

This sector is being reshaped with the deployment of variable renewable energy (VRE), energy storage, and innovative uses for distributed energy resources (DERs). MIT PhD candidate Shaylin Cetegen (pictured) and her colleagues, Professor Emeritus Truls Gundersen. Lineage Logistics is the world's largest temperature-controlled industrial REIT and logistics solutions provider with a global network of over 370 facilities, including more than 250 locations in North America. For that reason, Microsoft® Word, rather than PowerPoint, was used for producing the Review.
