GCL Integrated Photovoltaic Panel Procurement

Overview

GCL System Integration (GCLSI) announced it will begin delivering a 1.3 GW solar module order to China Resources Power (CR Power) in July. This follows CR Power's June 8 announcement of procurement results for its 2024 solar module equipment, naming GCL SI and Huayao PV as the winners. Copyright © 2023 GCL-SI. On March 12, Wuhan Optics Valley Comprehensive Energy Service Co. issued a change announcement regarding the winning bid result for the 2025 First Batch of Power Equipment and Materials Procurement - PV Module Framework Tender. The original bid winner, Huayang Group (Yangquan) New Energy, was replaced by GCL SI. GCL targets at making PV-generated electricity affordable and inclusive for the public by its constant technology innovations in polysilicon, silicon wafers, cells, modules, system integration and photovoltaic power plants, continuous improvement of its management, regional layout and green energy. GCL System Integration (GCLSI) announced it will begin delivering a 1.3 GW solar module order to China Resources Power (CR Power) in July. This time, five photovoltaic enterprises were shortlisted, and GCL SI was the overall bidding unit. Chinese module maker GCL SI has expanded into back contact (BC) solar cell production with its first 660 W BC module, featuring tunnel oxide passivated contact (TOPCon) technology.
