# **Georgia Energy Agency Energy Storage Project**

## Overview

---

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties. The BESS projects were authorized by the Georgia Public Service Commission (PSC) through. All of the Company-Owned Proposal (COP) BESS will use Tesla Megapack. The Twiggs BESS will store excess solar energy during periods of low demand, ensuring a reliable power supply during peak times. The. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.
