German wind turbines

German wind turbines

German wind energy in numbers

At the end of 2024, there were a total of 28,766 onshore wind turbines in Germany. Source: FA Wind und Solar

Wind Energy Industry in Germany

Germany is by far the largest market for wind energy in Europe. Further expansion both onshore and offshore will lead to high demand for wind turbines and implementation expertise.

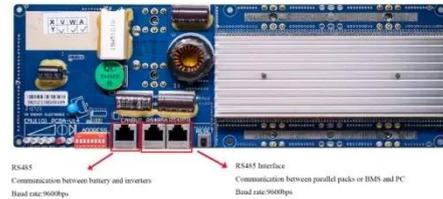

Wind industry in Germany

Germany leads Europe in the construction of new wind turbines. Last year, companies in the wind industry constructed around 13 GW of wind turbines across the EU, 4 GW of which

Record 7.8 GW of new wind power capacity approved in Germany's ...

Germany's onshore wind sector is experiencing a remarkable upswing in 2025, with record figures for new installations, project approvals, and tenders in the first half of the year.

Germany Wind Energy Market Size & Global Report 2031

One V236-15 MW machine produces 80 GWh annually, allowing 400 MW farms to use fewer than thirty turbines and reducing foundation count by 40%, an efficiency prized across the ...

Does Germany need wind power?

Larger, more advanced wind turbines are now being built to replace older power stations, and could help bring renewables up to around 80% of the country's total energy supply.

German onshore wind power - output, business and perspectives

With more than 28,000 turbines and a cumulative capacity of 63 gigawatts (GW) in operation across the country,

Germany boasted the largest installed onshore wind fleet in Europe and the third largest ...

Wind energy in Germany

Germany is one of the largest wind energy markets worldwide. In 2023, the country ranked third in terms of installed wind capacity, only after China and the United States. Today, wind is

Wind power in Germany

Wind power is a major source of electricity in Germany and the Energiewende (German for 'energy turnaround') that has phased out nuclear power in 2023. Domestic generation is about 60% ...

Wind Power Plants in Germany (Map)

Data and information about Wind power plants and their location plotted on an interactive map of Germany.
