# High quality power switchgear in Romania

## Overview

---

The Romania Switchgear Market report thoroughly covers the market by voltage, insulation, and applications. Eximprod is a Romanian company that specializes in the energy sector, offering a wide range of switchgear equipment, including high, medium, and low voltage solutions. Their extensive portfolio and innovative technologies, such as SmartGrid, enhance control over transport and distribution networks. Service voltages between 6 kV and 36 kV, currents between 400 A and 2500 A and short-circuit currents between 12. With a global net of customers, active in a variety of different areas such as: Energy (Low voltage Power Centers & Motor. Founded in 1970, with over 47 years of experience, Electrotel is one of the most prestigious Low and Medium Voltage panel builder and designer in Romania. 46% during the forecast period (2025-2031). Its basic function is to interrupt current flow after a fault is detected.
