How big of an inverter does a 72v 22ah come with

Overview

Inverters of this size (250 watts) usually come with 1-2 outlets and some USB ports. This is a great tool to have in your car!. We created a formula below which helps you know what size inverter you need based on the appliances you want to power: $\text{Inverter size (Watt)} = \text{Total sum of all appliances power (Watt)} \times 1$. Includes real-world examples and solar integration tips! So, you've traded your stationary home for four wheels and a view—nice move! But now you're staring at your RV's electrical system like. To determine the size of the inverter needed for a 72v 200Ah lithium battery, consider the total wattage requirements of the devices you plan to run. Take into account the surge power requirements of appliances during startup. For a 36V 14A Battery you would need a maximum of 500W inverter.
