

How much does a Wenshan solar inverter cost

Overview

Bottom line, most homeowners drop between \$1,500 and \$4,500 total for an inverter installed. If you're weighing options, start with your roof's vibe and your long-term. Items usually would be shipped within normal business days unless otherwise noted by availability in the product details. We always make sure that each order arrives on time, however, there may be delays in shipping information. A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation. Solar inverter prices depend on the size and whether it's a string inverter, microinverter, or hybrid model. Three of the most popular options for. The size of your solar system (measured in kilowatts, or kW) directly impacts the size—and, therefore, the cost—of your inverter. Think of it like this: a small apartment needs a smaller AC unit than a large house. The same principle applies here.
