How much does it cost to install solar power in Melbourne

Overview

To give you a rough idea, the solar PV system cost Melbourne usually works out at around \$1,000-\$1,400 per kilowatt before rebates. 6 kW system (the most popular size right now), you're looking at somewhere between \$6,600 and \$9,000 before incentives. The average cost of solar panels in Melbourne (including GST and the federal STC rebate) is: Premium solar systems, offering higher-quality panels and inverters, are about 20-30% more expensive. For example, a premium 6 kW system is roughly \$7,120. Typical payback time: 3-5 years, depending on. Melbourne receives enough sunlight to make solar panels effective, with an average energy output of 4.8kWh per square meter per day, despite being further south than Sydney or Brisbane. The prices above include all system components, the Federal government rebate, the cost of installation and GST. System Size This is the biggest factor.
