To craft an effective solar photovoltaic contract, it is imperative to focus on several critical aspects that ensure all parties are protected and understand th. r house and you sign a contract to use the system. Contracts often las 20 years or more. You don't buy the system or own anything installed on your property ing the term of the contract, you're entitled to use all the ower the system produces. You'll probably buy less power from your electricity. A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each. Our templates are designed with industry-specific expertise, helping you save time and reduce the risk of overlooking critical contract components. » MORE: See our picks for the year's best solar. Like buying a car, you can purchase the system outright or lease it. You could also sign a Power Purchase Agreement or a PPA, meaning you buy energy from your rooftop solar panels but you don't own the system. Head over to our Solar Financing Guide to find a detailed.
