Hi there, we're Jonathan & Ashley from Tiny Shiny Home. Our family of 6 spent many years traveling full-time in our renovated vintage Airstream. With the effort you put into making a homemade solar panel, you can help prevent environmental pollution by reducing fossil fuel usage. To build your own solar panel, you'll need to assemble the pieces, connect the cells, build. If you're considering DIY solar, starting with a small off-grid system, such as a ground-mounted or portable unit, is significantly safer and more manageable than installing a full rooftop or grid-tied system. Begin by creating a spacious and even fo.
