

How to choose warranty options for low-pressure outdoor telecom cabinets

Overview

Discover the key differences between IP55 and IP56 ratings, their applications, and how to choose the right protection for AZE outdoor telecom cabinets. Learn which rating suits your environment and ensures optimal durability for your telecom equipment. When selecting an AZE outdoor telecom cabinet, consider the following factors: If the cabinet will be installed in a region with heavy rain, storms, or high-pressure cleaning, choose IP56. For areas with light rain and moderate conditions, IP55 is sufficient. When it comes to outdoor telecom cabinets, your IP (Ingress Protection) rating isn't just a badge—it's a survival guarantee. From initial design through final inspection, we maintain complete control over the. Protecting your telecommunications equipment in outdoor environments requires a reliable solution. Security threats, including vandalism and unauthorized access, add another layer of risk.
