How to make solar power cake

Overview

In this guide, we'll walk through everything you need to know about solar oven baking, from choosing the right recipe and equipment to mastering the technique. Making a solar oven cake is surprisingly simple: just prepare a standard cake mix in a dark, thin-walled covered pan, preheat your solar oven to at least 250°F (121°C), and bake for a slightly longer time than the box directs, checking for doneness with a toothpick. Solar ovens work by converting sunlight into heat, a method that doesn't require electricity or gas, making it a sustainable choice for baking. Francine also shares her tips for the best solar cooking recipes. Separately make cake batters as directed on cake mix box. Chocolate Pecan Bars are as simple to make as brownies, but a whole lot richer.
