# Huawei s new solar panels in South Sudan

Modular design,  
unlimited combinations in parallel

**BUILT-IN DUAL FIRE PROTECTION MODULE**

## Overview

---

China's Huawei has proposed building solar power stations in Sudan with a capacity of over 1,000 megawatts (MW), the country's energy ministry announced on Wednesday, as the conflict-hit nation struggles with extensive damage to its power grid. In a monumental partnership, Huawei is collaborating with the Sudanese government to develop a 1,000 MW solar power project. This ambitious venture includes a 500 MWh battery storage system designed to address Sudan's ongoing energy challenges and accelerate its transition to renewable energy. Will Huawei build new solar power stations in Sudan?

"The Huawei delegation revealed the company's intention to implement a huge project to build new solar power stations to enhance Sudan's renewable energy sources," the statement said. This project was entirely self-funded by Ezra Construction Company., a subsidiary of the Ezra Group, this project marks. Chinese multinational technology corporation, Huawei, unveiled three smart solar photovoltaic (PV) solutions to help residential consumers cope with energy security and affordability issues in Africa.
