# Is there a solar power generation base in Laos

## Overview

---

The first phase of the 1-million kilowatt photovoltaic project at China General Nuclear Power Group (CGN) clean energy base in northern Laos officially commenced on Wednesday, the Global Times learned from CGN on Thursday. This landmark initiative represents a major boost to the region's green energy capacity and underscores the growing momentum behind utility-scale solar. Construction at the 1,000 MW solar farm in Oudomxay province, Laos is 60% complete and expected to be operational by the end of 2025. (Photo: ສະຖານີວິທະຍຸ ແລະ ໂທລະພາບ ແຂວງອຸດົມໄຊ) A 1,000-megawatt solar power project in northern Laos' Oudomxay Province has reached 60 percent completion and is. ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans. Located in the Oudomxay province, the project will.
