Jiang acquires photovoltaic panel manufacturer

Overview

Materials science giant Corning is betting on US solar, buying Chinese-owned JA Solar's 2 GW factory in Arizona as clean energy tax credit rules tighten. This acquisition comes at a pivotal time as the U. government tightens its regulations regarding tax credits for solar projects that utilize foreign materials, particularly. Under the name American Panel Solutions, Corning will expand its footprint by manufacturing solar modules to serve the U. solar supply chain with the acquisition of JA Solar's production facility in. At present, all of Suzhou, eastern Jiangsu province-based GCL's production is in China, Jiang said. The facility will become an asset of American Panel Solutions, a wholly owned subsidiary of Corning, according to a. JIANG is an unfunded company based in Hangzhou (China), founded in 2017. JIANG has not raised any funding yet. The company has 373 active competitors, including 19 funded and 31 that.
