

KREATYWNY ENERGY POLSKA

Large-capacity outdoor solar cabinets for environmental protection projects

Overview

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO₄ batteries with high thermal stability, extensive cycle life (up to 6000 cycles), and stable performance under load. One of our recent projects with a leading U. solar engineering company perfectly illustrates how E-abel helps partners expand their offerings through tailor-made solar battery storage cabinets, designed to house both inverters and battery systems. Equipped with a reliable Growatt inverter, it supports flexible battery options including rack-mount and stackable batteries.
