Overview

With an 11 kW charging station and an average rate of 0.191 GBP/kWh, you can charge your vehicle for approximately 6,84€ to 11,40€ depending on your battery capacity. Residents who purchase an electric or hybrid vehicle can apply for a subsidy of up to 8,000 euros from the government and their annual circulation tax will be reduced. Two scenarios are universal (at home and on the motorway) and two scenarios are specific to Luxembourg (CHARGY and SUPERCHARGY). The cost of home charging is most advantageous in. The Luxembourg government actively encourages the adoption of electric vehicles by offering financial assistance and tax benefits. The country's Integrated National Energy and Climate Plan (PNEC) sets a target for 49% of the car fleet to be electric by 2030.
