

**KREATYWNY ENERGY POLSKA**

# **Make a solar power pack for outdoor use**

## Overview

---

In this Instructables, I walk you through everything you need to know to make your own DIY solar power pack. This is a perfect tool for any outdoor use such as camping, hiking, hunting, offroading, fishing, and survival situations. During the storm/grid power cut-off, you can use it at your home. This portable generator will find a home in our Roof Top Tent Trailer to power lights and cooler fridge. We use a Solar Suitcase to keep this box charged. The battery box will be portable making it easy to use for emergencies at home.
