New Energy solar Storage Project Investment

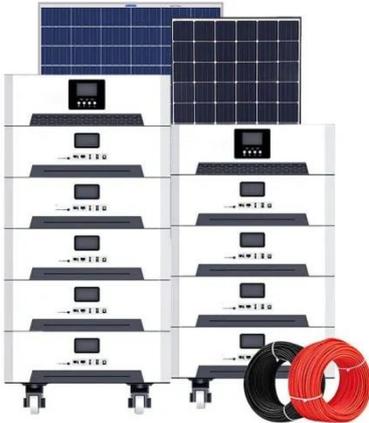

Overview

New Jersey will build “thousands of megawatts” of new solar PV and energy storage capacity, and introduce permitting reforms and electricity rate management, as per executive orders signed by newly inaugurated governor Mikie Sherrill. The Governors of Maryland and New Jersey have enacted legislation to accelerate the deployment of technologies, including solar and energy storage, in response to energy cost and supply concerns. Both states are within the service territory of the largest grid and wholesale market operator in the. The Clean Economy Works (CEW) Project Tracker tracks private-sector announcements, expansions, cancellations, closures, and downsizings of large-scale clean energy factories, investments, operations, deployment, and projects every month. Figures and estimates are based on publicly announced. st quarter on record for total installations.

HOUSTON/WASHINGTON, Octo-- The U. energy storage market experienced significant growth in the second quarter, ith the grid-scale segment leading th ed rapid growth that is expected to continue. An estimated 387 gigawatts (GW) (or 1,143.
