

Off-grid solar panel prices

Overview

Off-grid solar systems typically cost between \$45,000-\$65,000 for a complete home setup, significantly more than grid-tied systems that average \$15,000-\$20,000. Battery storage represents the largest expense in an off-grid system, often accounting for 30-40% of the total system cost. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. Being armed with this information is a key starting point in figuring out how to go off-grid, what you'll need in order to pull it off. Switching to off-grid solar systems provides energy independence, sustainability, and long-term savings.
