PetroChina Solar Power Generation

PetroChina Solar Power Generation

China's Tarim Oilfield records solar generation of over 2

The annual solar power generation at PetroChina Tarim Oilfield, China's third-largest onshore oil and gas field, has surpassed 2 billion kWh as of Sunday.

Huge Energy Successful Groundbreaking Ceremony for PetroChina...

The groundbreaking ceremony for PetroChina Fujian Sales Company's PV power generation project was successfully held. The project, for which Huge Energy is responsible for the ...

- ✓ 50KW/100KWH
- ✓ HIGHER POWER OUTPUT IN OFF-GRID MODE
- ✓ CONVENIENT OPERATION & MAINTENANCE
- ✓ PRE-WIRED

Power plant profile: PetroChina Tarim Oilfield Solar PV Park, China

PetroChina Tarim Oilfield Solar PV Park is a 200MW solar PV power project. It is located in Xinjiang Uyghur Autonomous Region, China. According to GlobalData, who tracks and profiles ...

PetroChina's First Petrol Station

Photovoltaic Power Generation ...

Recently, the photovoltaic power generation project of PetroChina International Business Hong Kong Company's Kam Tin Petrol Filling Station was officially put into operation, which is the ...

China's solar-powered highway yields 5M+ kWhs of green ...

China's solar-powered Tarim Desert Highway, recognized as the longest photovoltaic irrigation and sand control project in China, has generated more than 5 million kilowatt-hours of ...

Redefining energy: PetroChina's vision of cleaner solutions and

Concurrently, PetroChina is expanding its portfolio in renewable power generation, with notable advancements in wind, solar and geothermal energy, as well as in energy storage systems ...

PetroChina's first surface photovoltaic project generates more ...

As of November 8, PetroChina's first surface solar panel project, Daqing Oilfield Xinghuo Photovoltaic Power

Station, has been running smoothly for 131 days, with a cumulative power ...

Exploration and Production

The following projects commenced the construction progress: the wind and photovoltaic power generation in Lindian, Daqing and the 2.64 million kilowatts of new energy and supporting coal-fired ...

PetroChina's largest single-unit photovoltaic power generation ...

On November 3, the Yecheng 500,000-kilowatt photovoltaic power generation project, the largest external clean energy new energy station built by PetroChina Tarim Oilfield, was officially connected ...

PetroChina Tarim Oilfield's first and largest single PV station put

On November 5, the first and largest single photovoltaic (PV) power station of PetroChina Tarim Oilfield was completed

and became operational. The 3.6-MW PV power station is a surface engineering ...
