

Photovoltaic panel damage case sharing

Overview

Fill out the free case review form on this page describing your circumstances to find out if you have legal recourse to recover damages. You may be eligible to participate in a class action lawsuit. A photovoltaic (PV) module, commonly known as a solar panel, is composed of multiple layers. Failure of the backsheet allows humid air to enter the module, resulting in water. As of August 2025, we've crossed a major milestone: over 3,000 active cases. This fall will be extremely busy, with trials set. Berger Montague is investigating a potential nationwide class action lawsuit against companies that manufacture and sell solar panels, inverters/microinverters, and other components of residential and commercial solar power systems. The findings of this study show that the.
