Price of solar energy storage power supply in Auckland New Zealand

Overview

The average cost to install a 5kW system in New Zealand is now around \$11,000-\$13,000, compared to \$15,000+ just a few years ago. With systems lasting 25+ years and minimal maintenance required, the upfront investment quickly pays for itself. Modern electricity retailers in Auckland have introduced "Time-of-Use" pricing, which significantly impacts your daily power costs. Here's how it works: To put this in practical terms: Currently, only 23% of retailers offer these time-of-use plans, meaning many Auckland households can't yet benefit. After surveying almost 100 New Zealanders about their solar and battery installs, Mysolarquotes recently released 'The Hidden Costs of Solar and Battery Systems in New Zealand: 2024 Insights' report. And it's good news for customers looking to go big. As the report summarised in its key takeaways. The full cost of getting a home solar system installed depends on: whether you include a battery for storing electricity. 2kW Harrison's Solar Power System.
