How Renewable-Powered Microgrids Help Towns Weather Hurricanes

Microgrids can operate in isolation from the larger grid when needed locally, and also provide energy to a region's main grid--and reduce carbon emissions and costs--during normal ...

OUC Partners with Capacitech

Energy on Microgrid Project

Florida public power utility OUC is collaborating with Capacitech Energy in a microgrid project to demonstrate Capacitech Energy's largest deployment to date of the PowerLink, a cable ...

First solar microgrid community coming to Lakeland

-- After city commissioners unanimously approved a \$4.2 million deal earlier this week, Lakeland officials are moving forward with plans to build the city's first solar-powered microgrid

Florida is getting a new solar microgrid community

Block Energy plans to break ground on the Florida solar microgrid community next year, with Highland Homes beginning construction in 2025.

Lakeland signs \$4.2M deal to build a solar 'microgrid' ...

The city will enter a contract with Tampa-based Block Energy Inc. to build a housing subdivision of 77 homes on a solar-powered microgrid.

Power to the People: Microgrid Gives Community Control of Its Energy

None of the microgrid equipment was damaged by the hurricane. The system provided 100% uptime to customers, even when the grid-tie went down for three days.

Microgrids Cropping Up in Florida with Utility Partners

It's generally more difficult for private developers to build sophisticated microgrids in states like Florida that did not undergo industry restructuring. Utilities in these states have more monopoly sway.

During a Historic Hurricane Season, Microgrids Kept Communities ...

Solar-plus-battery microgrids (unlike generators) are not susceptible to the

fossil supply chain issues that hit Florida this past hurricane season. Solar and battery costs continue to decline, ...
