# **Professional photovoltaic panel piling**

## Overview

---

At Exactus Energy, we specialize in providing thorough solar pile and foundation designs to set you up for success through installation and beyond. Solar pile structures are foundational components supporting solar panel arrays, often composed of durable materials like steel or. Helical piles have become the go-to foundation system for freestanding solar arrays. Helicals offer a wide variety of terminations to adapt to virtually any solar array connection detail. Steel piles are also highly durable and can be galvanized to resist corrosion. Whether for residential, commercial, or utility-scale projects, our helical screw piles offer the ideal solution, ensuring that your solar panels are securely anchored and aligned. Three primary pile types used are Pipe Piles, "I" Beams and Helical Piles.
