# **Renting rooftop photovoltaic panels**

## Overview

---

Renting your roof for solar panels is an agreement where, as a property owner, you allow a company to install solar panels on your rooftop to generate renewable energy. In return, you receive an annual rental income without any need for an initial investment. So, if you do have some empty roof space going to waste, reach out to YSG Solar today and learn how much you could earn by renting your roof for solar. Solar developers who offer these rentals typically handle the installation, maintenance, and repair costs of the solar panels at no upfront cost to the property owner. With solar energy adoption growing at 24% annually (Global Market Insights 2023), understanding pricing models helps businesses monetize. Harnessing solar power for your home is a sustainable and cost-effective solution that can significantly reduce your carbon footprint.
