# **Renting rooftops to install photovoltaic panels**

## Overview

---

Solar rooftop leasing is one of the three basic ways you can make money from your rooftop with solar energy. The other two involve owning and operating solar panels on your own roof and joint venturing with a developer who will install the solar panels and share the income with you. If you have an underutilized roof, you could be missing out on a great opportunity to generate passive income, reduce your electricity bill, and. The most appealing aspect of renting your roof for solar panels is the financial benefit. However, a solar installation's price tag of \$15,000 or more can be intimidating.
