

Scam routines for contracting photovoltaic panel installation

Overview

These scams start with an unexpected phone call, message on social, or even an in-person visit. Or they might try to sign you up for a “free” program to make your home more energy efficient with. Some schemes involve collecting your social security number or contact information under the pretense of qualifying for solar incentives, while others hide long-term obligations inside a power purchase agreement. When someone is standing in your doorway, it can be hard to say no. Resist the urge to go solar. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies. Here are some of our recommendations for avoiding solar scams: The saying "there's no such thing as a free lunch" applies when shopping for solar. If you see ads on social media or have a door-to-door salesperson stop by your home and share special programs that pay you to go solar, they're likely. Scammers across the U. are going door-to-door, pitching “free” solar energy systems.
