Solar Power Plants in Iran (Map)

Data and information about Solar power plants and their location plotted on an interactive map of Iran.

Iran adds 600 MW of solar power, launches major renewable projects ...

In an appearance on the state TV, Parandeh Motlaq said the Energy Ministry has undertaken the development of several government-led solar power plants to help meet growing ...

Iran Starts Operation of New Solar Power Plants

In relevant remarks in August, Iranian Deputy Energy Minister Mohsen

Tarzialab announced that in the first four months of the current Persian calendar year (started on March 21), ...

Iran sets new solar power record with 800 MW milestone as ...

Iran has set a new national record in solar energy generation, achieving an unprecedented 800 MW of instantaneous output from solar power plants across 24 sites in several ...

Explainer: Iran's largest solar power project takes off in

Designed to expand to 600 MW by March 2027, Aftab Sharq will become Iran's largest solar facility upon completion. The remaining 480 MW will be installed over the next 18 months in ...

Iran approves 500 MW of new solar power plants

Iran's Energy Ministry has given its final approval for plans to launch 500 megawatts of new solar power plants as part of a campaign to increase the share

of renewables in the country's electricity mix.
