# **Shenghong withdraws from solar inverter**

## Overview

---

First reported by Reuters on , experts confirmed these hidden cellular radios are real, but as of this writing there is no confirmed case of exploitation, sabotage, or data exfiltration. Solar panels fields on the green hills stock photo. energy officials are reportedly reassessing the security risks posed by Chinese-made. In November 2024, several major news outlets, including Reuters, and The Times (UK), reported a vague but alarming incident: that solar power inverters in the United States were remotely disabled from China, raising fears of embedded “kill switches” and foreign control over U. energy. An in-depth analysis for executive leadership and board members on undisclosed communication devices in Chinese-manufactured inverters, and why immediate action is required to safeguard grid resilience. energy authorities to reevaluate security risks for renewable energy infrastructure. On the 14th, Reuters quoted a U.

## Shenghong withdraws from solar inverter

### U.S. discovers illegal devices in Chinese solar inverters, raising

An unidentified illegal communication device has been found in Chinese solar inverters, prompting U.S. energy authorities to reevaluate security risks for renewable energy infrastructure.

### Chinese Inverter Backdoors: A Renewable Energy Cybersecurity ...

An in-depth analysis for executive leadership and board members on undisclosed communication devices in Chinese-manufactured inverters, and why immediate action is required to ...

### Lithium Solar Generator: \$150

- LIQUID/AIR COOLING
- ON GRID/HYBRID
- PROTECTION IP54/IP55
- BATTERY /6000 CYCLES

### US experts warn 'rogue' devices found in Chinese solar power inverters

U.S. security experts have reportedly uncovered undocumented communication devices inside Chinese-made solar power inverters -- hardware that's widely used to support renewable energy

## US uncovers hidden radios in Chinese solar inverters, sparks alarm

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

## Rogue Communication Devices Found in Chinese Solar Power Inverters

In November, the Lithuanian government passed a law blocking remote Chinese access to solar, wind and battery installations above 100 kilowatts - by default restricting the use of Chinese

## Rogue Devices Capable Of Triggering Blackouts Reportedly Found In

Over the past nine months, "rogue communication devices" not listed in product documents were found in solar power inverters and batteries from several Chinese suppliers, ...

## Hidden devices found in Chinese-made inverters in the US, reports

This follows discovery of rogue communication devices not listed in

product documents in some Chinese solar inverters, according to Reuters. The number of devices investigated was also ...

## Hidden tech in Chinese solar inverters gives Beijing the power to

The incident exposed a chilling reality: Chinese-made solar inverters, critical components in renewable energy systems, contain hidden cellular technology that allows remote ...
