

# **Slovenia s first new grid-side energy storage project**

## Slovenia's first new grid-side energy storage project

---

### Slovenia's EUR 150 million smart grid leap

Elektro Primorska, Elektro Ljubljana, Elektro Gorenjska, Elektro Celje, and Elektro Maribor will build 1,300 kilometers of low-voltage grid and 838 transformer stations with smart grid ...

---

### Sincro.Grid , Sincro.Grid

The SINCRO.GRID - Phase 1 project demonstrated how distribution and transmission system operators could enable their existing infrastructure to accept greater quantities of electricity from renewable ...

### Slovenia Energy Storage Group Investment Project

They are part of the SINCRO.GRID project, a smart grid investment project in Slovenia and Croatia which was launched in 2016 and with EUR40 million (US\$43.25 million) in financing from the European Union. It aims to ...

---

### Slovenia endorses key green

## energy, grid investments

Slovenia selected a range of projects eligible for support via the European Union's Modernisation Fund. The focus is on battery storage and distribution grid. Two proposals for photovoltaics are for sites ...

### Grid-Side Energy Storage Power Station in Maribor Powering Slovenia s

Maribor's grid-side energy storage initiative positions Slovenia as a Central European leader in smart energy management. By balancing renewable integration with grid reliability, this project offers a replicable model for ...

### Slovenia's EUR 150 million smart grid leap

Elektro Ljubljana is eligible for EUR 19 million, to build 373 kilometers of low-voltage network and 240 transformer stations. Its investments are estimated at EUR 40 million in total.

### Slovenia grid-side energy storage project

A few grid-scale battery storage projects are already underway in Slovenia,

including two units totalling 60MW co-located with a run-of-river hydroelectric plant, as well as a new pumped hydro energy storage (PHES) ...

---

### **HSE Spearheads 80 MW Solar & Battery Storage Projects ...**

Slovenia's HSE signs a EUR100M deal for 80 MW of new solar power plants with integrated battery storage, advancing the nation's renewable energy goals for 2050.

### **Slovenia grid-side energy storage project**

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS).
